FFmpeg: the road to Fedora

Dominik Mierzejewski

Agenda

- The author
- Fedora, FFmpeg and RPM Fusion
- The past
- The present
- The future

The author

Dominik Mierzejewski (Rathann)

- 25+ years of open source contributions
- Contributor in
 - Multimedia software
 - Scientific software
 - Fedora Linux
- 20+ years of IT industry experience
- Unix Admin, System Engineer, Security Engineer

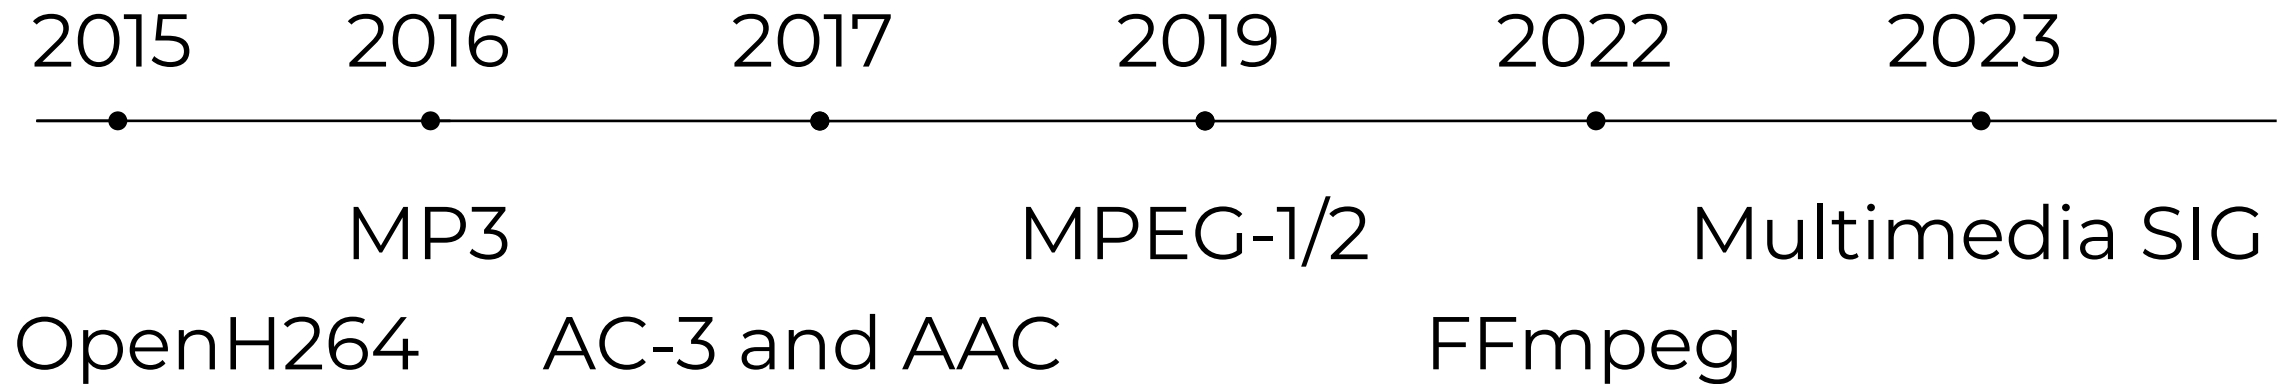

Fedora, FFmpeg and RPM Fusion

- Fedora (Workstation, Games, Audio)
- FFmpeg (record, convert and stream AV)
- RPM Fusion (popular third-party repo)

The past

The present

https://fedoraproject.org/wiki/Eligible_Multimedia_Packages

- Multimedia SIG (~50 packages)
- Other maintainers (~100 packages)
- RPM Fusion free (~160 packages)

The future

<https://fedoraproject.org/wiki/SIGs/Multimedia>

- Move eligible packages into Fedora
- Fix issues with codecs
- Non-eligible parts as plugins or replacements
- Patents expire (HE-AAC, H.264 and H.265)
- Unencumbered codecs (VP9, AV1) take over

Questions?

Thank you!
